

Dear parent and/or guardian,

Today, _____, your child _____ was sent home for exhibiting the following symptom(s):

_____ Fever, Temp.: _____	_____ Cough	_____ Runny Nose
_____ Fatigue	_____ Nausea	_____ Body Aches
_____ Vomiting	_____ Headache	_____ Diarrhea
_____ Muscle Pain	_____ Sore Throat	_____ Chills
_____ Loss of taste or smell	_____ Shortness of breath	

In keeping with the recommendations of the Centers for Disease Control and Florida Department of Health, here are your options for returning to school:

1. Consult with your child's healthcare provider for an evaluation and a PCR COVID-19 Test. <https://covid19.pinellascounty.org/testing/>. Your child can return to school after a Negative test result, symptoms have subsided, and he/she has been 24 hours without a fever (and no use of fever reducing medicine). Test Results can be scanned, emailed, or brought into the school.
OR
2. Obtain a written alternative diagnosis (i.e. common cold, allergies, flu, migraines, etc.) from your child's healthcare provider. With the doctor's note, they may return to school after symptoms have subsided and he/she has been 24 hours without a fever (and no use of fever reducing medicine). The doctor's note can be scanned, emailed, or brought into school.
OR
3. If you choose to not get a test and/or not get an alternative diagnosis from your healthcare provider, you must keep your child home for 10 days. They may Zoom into their class while they are at home.

Please inform the school of your decision from one of the options listed above.

Thank you for your continued support and adherence to our rules to keep our entire student body and staff safe.
