

Field Trip/Activities Vehicle Information

Field Trip: _____

Date: _____

Driver Name: _____

Vehicle to be used to transport the students:

Make: _____ **Model:** _____ **Year:** _____

- **Field Trips – Utility Vehicles:** The DOE guideline listed below states that utility vehicles with a wheelbase of 110” or less are **NOT** to be used to transport students.

Recognizing the higher risk of rollover associated with the short wheelbase "utility vehicle" subcategory of MPVs (as opposed to the larger sport utility vehicles and minivans), federal regulations require that utility vehicles with a wheelbase of 110 inches or less have a rollover warning label affixed to the driver's sun visor (Title 49 CFR, Part 575.105). School districts and charter schools are advised NOT to use these vehicles to transport students.

Examples of Sport Utility Vehicles

Required to Contain a Rollover Warning Label

(wheelbase less than 110") Not allowed to be used to transport students.

Acura MDX	Lexus GX
